JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

transport *Logan*, with 193 in crew and 165 cabin and 897 steerage passengers, granted a bill of health for San Francisco via Nagasaki and Honolulu. Vessel partially disinfected. Crew and steerage passengers bathed, and their effects and baggage disinfected. Cargo and baggage either disinfected or passed after inspection. All persons on board inspected at hour of sailing.

#### RUSSIA.

##### ST. PETERSBURG—Status of Cholera in Russia.

The following information dated February 2 and 5 was received from Minister Rockhill through the Department of State, February 24:

Communications from the foreign office state that from January 16 to 22 there were 3 deaths from cholera in Moscow, and that from January 23 to 29 there were 2 cholera deaths and 1 new case of cholera in Russia. The cities of Moscow and Baku, the district of Lankoran, in the government of Baku, and the city of Astara, in Persia, are officially declared free from cholera.

##### LIBAU—Examination of Emigrants—Plague in Russia.

Acting Assistant Surgeon De Forest reports, February 6:

Week ended February 6. The steamship *Russia* sailed from Libau February 1 with 508 passengers and a crew of 130, all of whom had been in Libau under observation for the full 5 days. One hundred and one pieces of baggage were disinfected.

At Astrakhan 11 cases of plague with 11 deaths were reported, and at Riga typhus fever was reported as prevalent.

### CHOLERA, YELLOW FEVER, PLAGUE, AND SMALLPOX.
